Music Choice and digital ready (Clear QAM) televisions

Music choice channels being delivered directly to clear QAM digital televisions may or may not match Cox provided channel line-up cards provided to the university. This is due to how the many brands of digital ready televisions process the channel data information embedded within the delivery channel. Cox has determined that although most televisions will place the music choice channels in their proper allotted channel slots in the 900's, some televisions will display the channels a bit differently. For example, some TVs may display a channel number with a sub channel i.e. 70.78 etc. The way certain televisions process this information is out of Cox Communications control and we apologize for any inconvenience this may cause.

Effective August 2016

A clear-QAM HDTV is required to receive channels listed. All channels are subject to change.

Channels listed are for University of Louisiana - Lafayette on-campus locations only. Additional setup may be required.

Clear QAM TV Setup instructions

- 1: Go to the menu of your television.
- 2: Set your television to cable.
- 3: You will need to initialize an auto scan to pick up the new channel content.

If you have any questions or issues, contact the IT Help Desk at 337-482-HELP or ithelp@louisiana.edu.
