WebAID on PC - Java 8u161 or earlier

1. Open the Control Panel on your machine, find Java and click on Java App

Click the Windows icon on the bottom corner of your screen and type Control Panel.

Click Control Panel desktop app to open.
Change the View by: drop down to Large Icons

Click Java
2. In Java Console box, click the Security tab

3. In the Security tab, click Edit Site List.
4. Add https://webaid.louisiana.edu to the site list by clicking Add and typing in https://webaid.louisiana.edu and clicking OK
5. Click the Advanced tab

6. In the Advanced tab, scroll down

7. Under the Advanced Security Settings, **UNCHECK** the following options:
   - Use SSL 2.0 Compatible ClientHello format
   - Use TLS 1.1
   - Use TLS 1.2

Your Advanced Security Settings should look EXACTLY like the picture.
8. Apply and OK.

9. Completely close Internet Explorer, then reopen.

Once you reach WebAID you will receive the following prompts:

Click **LATER**
Click **RUN**
